

FVGC Update 2017-18

6th April 2018

Pleased to report our development work is now pretty much on schedule (completion date was revised after last year's APM) and we now hope to have the new clubhouse facility up and running for September. Open day for the villagers will be advised--very grateful for the support we received,

The first new build property should be completed just before that and work on the others will start soon--all have been sold off plan.

Conversion work on all the existing buildings to create 10 cottages (all to be available for freehold purchase and will be available off plan too in due course) will commence in the autumn with completion estimated to take about a year.

We hope that the villagers will regard our new venue as the "go to" place for a coffee, drink or meal with friends as well as being a great place for a family party of any kind.

Again thank you to everyone for their encouragement and support which I personally value greatly.

Tony Tyrrell
