

VHMC annual report on behalf of the Village Hall by Anne Debenham.

We decided to spend the money we got from the government on things we wouldn't be able to buy from just bookings. I bought two sorts of chairs and had users of the hall to vote on the ones they liked best. These are the winners and I ordered 140 of them so we have some spares. The old red plastic ones went to the church, Mrs Burrows and Mrs Cross, so they are still in the village. I tried to get the blinds mended but they don't repair anything over 3 years old, so we ordered new ones we had them all replaced so they should last a few years. I also bought a defibrillator, if anyone was taken ill in the church or village hall it would have meant getting a car and going to the barley mow. for theirs The Church and every class that uses the hall have been given the code to open it, and we are having a lesson on how to use it on April 26 7oclock. I AM TAKING NUMBERS WHO WOULD LIKE TO ATTEND. ..
