

## **Witnesham Wasps Football Club 2017-18 Season Report**

It has been another mixed bag for the Wasps football club in the 2017-18 season. There have been plenty of positives, but it continues to be difficult to run a football club with a limited number of volunteers.

We have again provided the opportunity to play football to over 200 players, who range in age from 5 to 59, once we take into account our veterans team. This is no mean feat and something for which we are immensely proud.

Our youngest age groups continue to play their football at the Witnesham playing field, but we limit this to our under 10s and younger as the playing surface cannot handle a more extensive use.

We have had successes on the pitch:

- Our U10s have only lost once all season, unfortunately that one loss was in the cup semi-final
- Our U13s Blacks team will gain promotion to division 1 for next season
- Our U15s have a lot of games to play but favourable results will see them catch the leaders and win Division 1

Our veterans team has found two successive promotions and handful and they will drop back down a division for next season ... but they gave it their best shot!

We have our end of season family day on the 10<sup>th</sup> June where we will bring the entire club together at Witnesham to celebrate another season of football for Witnesham Wasps.
